### "The Art of Listening: Maya Lin's Confluence Project on the Lewis and Clark Trail"

The Confluence Project is a series of art installations and interpretive artworks located along the Columbia River in Washington and Oregon, designed by architect Maya Lin. The project aims to connect people to the history, living cultures, and ecology of the Columbia River system, drawing on the region's history including Native American traditional stories and Lewis and Clark expedition journals.

#### Don Snow

professor emeritus at Whitman College has more than 40 years' teaching, research and publishing experience. He will reflect on the five sculpture installations created by architect Maya Lin (Vietnam Veterans Memorial).
